Risk Assessment Workbench — Product Owner Submission

Title:	Launch Instant Cross-Border Remittance Corridor to West Africa
Change Type:	New Product
Submitted By:	J. Alvarez, Consumer Payments Product
Date:	2026-09-26

Description

We propose launching an instant cross-border remittance product enabling customers to send funds with cash pickup at partner agent locations in a new West African corridor. The product will route transactions through several money service business (MSB) partners operating in a higher-risk jurisdiction to enable same-minute settlement. Initial volume is projected at \$8M/month within the first two quarters. This memo requests an FCRM risk assessment prior to pilot launch.
